

# Making the paddles move – Player #1

1. Select the first paddle(**sprite1**).
2. Create the **script** shown above.
3. Right click to duplicate the script, then change the key to “z” and “-10” to move the paddle down.

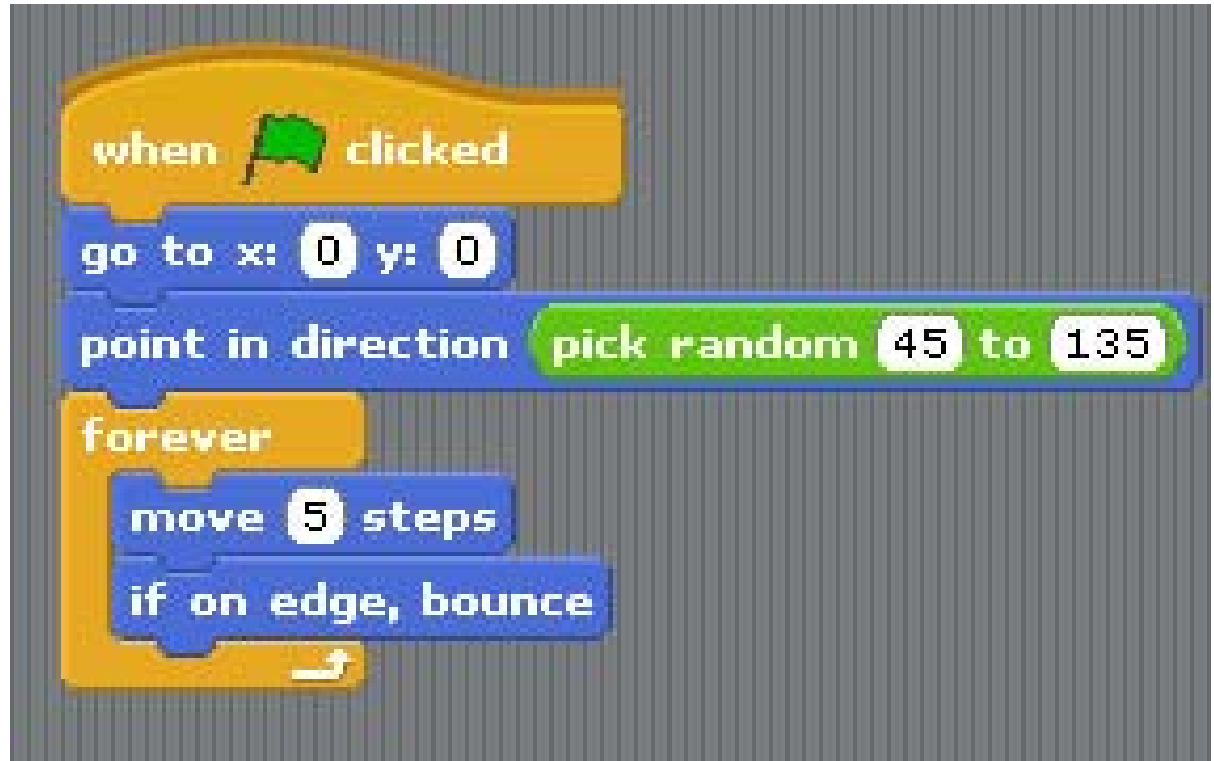

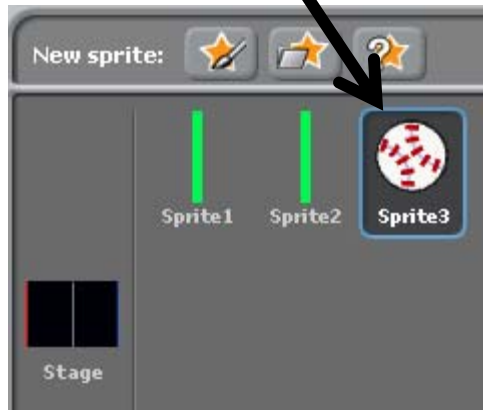

# Making the paddles move – Player #2

1. Select the first paddle (**sprite1**).
2. Drag the script over Sprite2 to copy the script for player #2.
3. Select the second paddle (**sprite 2**), right click to duplicate the script, then change the keys to “up arrow” and “down arrow” and the values “10” and “-10” as per the previous script.

# Making the ball move

1. Select the ball (**sprite3**).
2. Create the **script** shown above.
3. **Test** the ball uses random directions by starting and stopping the game 2-3 times.
